Mr. and Mrs. George Meffan returned
Tuesday afternoon from a two weeks
holiday spent in and around Vancou-
ver.

Mr. and Mrs. George Porter, of
Cowley, announce the engagement of
their daughter, Margaret Jean, to Mr.
Eric T. Alcock, son of Mr. and Mrs.
W. J. Alcock, of Macleod, the wedding
to take place Monday next.

RED CROSS RECEIVES \$30.00 FROM CANADIAN LEGION

Blairmore, July 3, 1943.
Mrs. A. R. Granger,
Treasurer Blairmore Branch,
Canadian Red Cross Society,
Blairmore, Alberta.

Dear Mrs. Granger:
We are pleased to enclose herewith
our cheque for \$30, which is a dona-
tion to the Blairmore branch of the
Red Cross.

Possibly you might be interested in
knowing how this money was raised.
Well, we had a general meeting of
the Legion on Tuesday night, June
29, at which two Czechoslovakian Air
Force officers were present.

At the conclusion of the business
session one of these gentlemen handed
over the sum of \$30.00 to our presi-
dent, stating that this was a donation
to the Red Cross Society. This gentle-
man spoke about the great work the
Red Cross were doing in his native
land, as well as in other enemy oc-
cupied countries.

The hat was then passed around
among the members present at the
meeting and upon counting the re-
ceipts it was found the sum of \$30
had been raised to help in the great
work which the Red Cross is doing.

Wishing the Blairmore branch
every success in their undertakings.

Yours truly,
D. A. HOWE,
Secretary Blairmore Branch No. 7,
Canadian Legion, B.E.S.L.

"v"

Mr. and Mrs. Jack Morden and
children were in from The Gap on
Wednesday.

Among the air bombers recently
promoted from sergeants to the rank
of pilot officers at Calgary was Fran-
cis Benton Murphy, of Cowley.

The Columbus hall was crowded to
overflowing, with about 200 unable
to get in on Monday night to hear
Tim Buck, well known Communist
leader.

"Have you any references?" asked
the old-fashioned housewife. "Yes,"
replied the new girl. "Both ladies I
worked for last week said you could
call them up if you wanted to."

Mr. and Mrs. F. M. Thompson left
by car on Wednesday evening for the
Pacific coast, where they are to make
their retirement home. Enroute they
hoped to visit their son, Robert, and
other old friends.

The first office to open in the new-
ly reconstructed Traders building in
Calgary was that of Major J. H. Gain-
or, M.C., district recruiting officer,
and his staff. The renovated building
will eventually house headquarters of
Military District 13.

The New York Times says the early-
reconstructed Trades building in
Calgary was that of Major J. H. Gain-
or, M.C., district recruiting officer,
and his staff. The renovated building
will eventually house headquarters of
Military District 13.

The death occurred at Calgary on
Wednesday of Mary Darlene, beloved
daughter of Mr. and Mrs. Joseph
Hillary, of Coleman. The remains
were brought back to Coleman, where
funeral service will be held in Holy
Ghost church at 10 a.m. tomorrow.
Saturday, and interment will take
place in Holy Ghost cemetery. Prayers
are to be said at the family home
this Friday evening at 8 o'clock.
Deceased was in her 21st year and is
survived by her parents; one sister,
Betty, in Coleman, and grandmother,
Mrs. Hannah Hillary, Calgary.

FRENCH VOLUNTEERS TRAIN IN NORTH AFRICA

Since the Allied campaign opened in North Africa, Frenchmen have
been volunteering for service against the Germans in large numbers.
Many of them fought in the battles of 1939-40 and some have been
prisoners in enemy hands. They are being trained as soldiers of the
Corps Afrique and are dressed in British khaki and are equipped with
British weapons. They retain as a distinguishing mark the French
Casque and Forage cap. On the cap they wear a Red, White and Blue
Flash for England and on their sleeves the colors of France. Their
training is in the hands of British NCO's with Front Line experience.
Picture shows a Frenchman who has volunteered to fight with
the British in North Africa against the common enemy.

According to returns of the Bureau
of Statistics, farm wages paid in Al-
berta are the highest in Canada.

The new central terminal of the
Canadian National Railways at Mont-
real, described by engineers as one of
the world's most completely modern
railway stations, was officially open-
ed on Wednesday of this week.

Ray Blake, who has been a patient
in the Bellevue hospital for the past
three months, suffering with a broken
leg, is now out of hospital; but it will
be some time before he is able to re-
turn to his work. Ray was injured at
the Blairmore mine, where he was
assistant pit boss.

Pte. Roy C. Taylor, of No. 22 Com-
pany of the Veterans Guard of Cana-
da at Sebe, is holidaying at Water-
ton Park. Pte. Taylor was former
pastor of the United church, later an
M.L.A. and deputy speaker. He is ac-
companied by Mrs. Taylor and son,
LAC Ronald Taylor.

The Echo has not got any spare
time or extra help to answer a num-
ber of unnecessary letters, yet we
are continually getting questionnaires
from government departments—army,
militia, air force, etc. etc. We will
soon have to advertise that letters
cannot be answered until after the war.—Pincher Creek Echo.

FO Douglas Craig, son of Mr. and
Mrs. K. G. Craig, of Macleod and
formerly of Blairmore, was one of the
crew of the Catalina flying boat which
followed immediately behind the glid-
er and transport making the first dual
flight from Canada to England with
war material and a ton of vaccine
for Soviet Russia.

GOLF CLUB NOTES

The Blairmore Golf and Country
Club are having a full day of golf on
Sunday, July 18th. In the morning
the men will play for possession of
the Charbonnier cup. At 2:30 p.m.
the ladies will join in a mixed two-
ball foursome. Prizes have been ar-
ranged for each event and the ladies
of the club will serve tea in the af-
ternoon.

Members are requested to be on
time, as each event will start promp-
tly.

COWLEY HAPPENINGS

Mrs. Ewing has returned home to
Pincher Creek after a two weeks vis-
it here with her sister, Mrs. George
Dwyer.

Mrs. Albert Yagos is a patient in
St. Vincent's hospital at Pincher
Creek. She is seriously ill, we regret
to say.

Mr. and Mrs. M. A. Murphy paid a
visit to friends in Pincher Creek on
Tuesday.

Mr. and Mrs. Norman Horning and
two children, of De Winton, are spend-
ing a few days here with Mr. and
Mrs. Archie Swart.

Donald Martin is an inmate at St.
Vincent's hospital at Pincher Creek,
having undergone an operation on
Wednesday morning. His condition
is reported favorable.

On Saturday afternoon last a very
successful tea, sponsored by the ladies
of the Red Cross, was held at the
home of Mrs. Robert Littleton. In
spite of rainy weather, a good crowd
turned out. The two pigs donated by
Wilfrid Fortier and drawn for were
won by Mrs. T. E. Murphy and Eric
Sandeman. The sum of \$38.05 was
realized.

HILLCREST HAPPENINGS

James Amphlett is spending his
summer vacation of six months with
his aunt at Los Angeles, California.
Steve Giza, RCAF, at Pierce, re-
cently visited his parents here.

Miss Helen Kybicz is spending her
summer vacation with her grand-
father in Edmonton.

Miss Rita Bain is spending her va-
cation with an aunt at the coast.

Mrs. F. White and son recently re-
turned from Vancouver to visit Fred,
who is a patient in the Bellevue hos-
pital.

Mr. and Mrs. J. McDade and daugh-
ter are visiting in Lethbridge.

R. Evans recently arrived from the
coast to spend a few months here.

Miss Eleanor Daniels, of Leth-
bridge, was a recent visitor at the
home of Mr. and Mrs. J. Seaman.

Miss Dlawski and George Hedi left
recently for the coast, hoping to se-
cure positions in the shipyards.

Sadé McDougall is guest of Ruth
McDade at Lethbridge.

Mrs. H. Welsh and Mrs. Hartford
and family are vacationing at Water-
ton.

Bob Cruickshank is down from
Stavely on a visit to his parents, Mr.
and Mrs. G. Cruickshank.

Sergt. Bill Makin, of the RCA, is
renewing acquaintances here.

Mr. Karlner and family have left
Hillcrest to make their new home in
Champion.

Those from Hillcrest attending the
Calgary Stampede last week included
Mrs. R. Bianchini, Chan On, Mr. and
Mrs. M. Douglas and children, Mrs.
C. Lawrence and daughter, Mrs. Wons
and children, and Mr. and Mrs. J.
Martinek and children.

Miss Patricia Kerr, of Edmonton,
is spending her vacation with Mr.
and Mrs. R. Crichton here.

Mr. and Mrs. Galt and daughter,
of Cumberland, B.C., are guests of
Mr. and Mrs. Panek here.

Mrs. J. Smith and daughter are
visiting with friends and relatives at
the coast.

Four degrees of frost in Blairmore
early this morning.

THE PASS EIGHTEEN YEARS AGO

(The Blairmore Enterprise, 1925)
July 30.—The Elks' first carnival
went over strong, gross receipts
amounting to \$4,600.

Jack Woods, of Coleman, was this
week elected grand chancellor of the
Grand Lodge Knights of Pythias of
Alberta, with Dr. Backus, of Red
Deer, as vice-chancellor.

Mrs. L. Anders, of Portland, Ore-
gon, was visiting her brother in Blair-
more, Capt. W. A. Beebe.

Mr. A. J. Kelly, student of law of
the office of Gillis & Mackenzie, Blair-
more, has been declared winner of the
Carswell prize and successfully passed
his examination. He attained an av-
erage of 93 marks in the eight or
nine subjects, with 90 in common law.

Aug. 6.—The marriage took place
in Calgary today of Marguerite Doug-
las, eldest daughter of Mr. and Mrs.
Richard Coates, of Cowley, to Mr.
Earl Albert Welsh, of Lethbridge.

Mr. and Mrs. Ed. Donkin and chil-
dren returned during the week from a
holiday spent at the Pacific coast.

Bob Gray, John Shafer, Dick Har-
per and Harold Pinkney molested fish
at Race Horse Creek over the week
end.

J. Angus MacDonald and sons were
spending a week in camp at the South
Fork.

W. H. Chappell and family were
holidaying at Waterton Lakes.

Aug. 13.—Garrison and Bartlett
walked to The Gap on Saturday, re-
turning Sunday. The round trip is
about fifty miles.

Bob Gray was busy organizing an
Elks lodge at Coleman.

G. K. Sirett and family and Tony
Serra were enjoying camp life in The
Gap for a few days.

Dr. J. S. Hynes, Miss M. Hynes, C.
J. Tompkins, Kathleen and Helen
Tompkins were enjoying a motor trip
over the Banff-Windermere highway.

Mr. and Mrs. O. J. Sparrow and
family, of Vancouver, were visiting
with Mrs. Sparrow's mother at Lund-
breck, Mrs. Madden.

Aug. 20.—The Crows' Nest Pass
Trapshooting Club was organized in
Blairmore this week with I. L. Mor-
gan as president, S. J. Lamey as vice-
president, W. W. Scott as secretary
and W. Bird as treasurer. A site for
use of the club was offered by Mr.
G. A. Vissac.

Aug. 27.—The Blairmore post office
was being moved into new quarters.

W. I. Huston and his sister, Mrs.
Brown, were victims of a crossing ac-
cident near Hosmer this week when
their car was hit by a railway engine
and demolished. Both suffered in-
juries and were being cared for in the
Ferne hospital.

Blairmore's new staff of teachers
were named this week as follows:
Principal MacPherson, Misses M. I.
Hall, E. V. McSloy, R. Mooney, M. A.
Hysen, M. Mitchell, H. C. Fitzgerald,
Dorothy A. Cox, Grace Lyndon,
Glady's Scott, Mr. Eric Muncester and
Mr. John M. Rothney.

"Home-Town Stuff"

comes first in the
major market!

That's why the "home-town" Weekly Newspaper
comes first in the reading and buying minds of the
7,750,000 consumers in Canada's smaller communi-
ties who make 69% of the country's retail sales.

The Weekly Newspaper is the one paper that is read
and discussed by the whole family. Its "home-
town" news is about people they know. Its "home-
town" editorials deal with matters of intimate
interest to them. Its "home-town" advertisements
by local dealers are based on friendly knowledge
of their needs.

The circulation of Canadian Weekly Newspapers in
Canada's 69% "home-town" major market total
2,800,000. That's coverage for you. But coverage
is only half the story. The secret of the success
enjoyed by advertisers using the Weekly News-
papers lies in the fact that the Weekly Newspaper—
and only the Weekly Newspaper—can offer the
sales-making friendly introduction which builds
regular users of a product.

Canadian Weekly Newspapers are first in reader
interest and first in sales influence in Canada's 69%
major market.

Inter-Empire Support

SINCE THE BEGINNING OF THE WAR and for a number of years previous to that time, persistent efforts have been made by the Axis powers to spread the impression that the British Empire is about to disintegrate because of internal dissension. The speed with which all parts of the Empire joined with the Mother Country when war was declared in 1939, was ample proof of the false nature of these claims, yet they have continued from time to time in utterances based either on enemy propaganda, or on misinformation. The part played by Canada, South Africa, Australia and New Zealand and other parts of the Empire in naval, air and military operations of the war is well known, and their importance is recognized. There are, however, many parts of the Empire, including the Colonies, who have made notable contributions about which we have heard little or nothing, and the British Ministry of Information has recently published some very interesting facts in this connection.

Much Monetary Support Given

We are told that in addition to the support of their own local military forces, members of the British Colonial Empire have contributed over \$100,000,000 in voluntary gifts towards the prosecution of the war. In Ceylon, \$35,500,000 has been contributed to war funds, and in addition, \$1,650,000 has been voted by the Ceylon State Council for the same purpose. In recognition of the latter contribution there is a Ceylon squadron of Halifax bombers in the Royal Air Force. The people of British East Africa have subscribed more than \$13,000,000 for war bonds, and in Tanganyika a war savings campaign, which commenced with an objective of \$2,200,000 was quickly over-subscribed and this figure has since been doubled. In Trinidad, investors in one week purchased more than \$37,000 worth of war savings certificates, and the Trinidad Bomber Fund had given more than \$800,000 for the purchase of a bomber before March, 1943. It is known that loans totalling more than \$30,000,000 have been given to the British Government by the governments of the colonies and by private individuals residing there. In addition to this, Colonial Governments are paying the interest on loans raised within the colonies, and lent to the British government free of interest.

Inter-Empire Help Generous

Apart from the financial help which the colonies are giving to the Empire war effort, it is interesting to note that many parts of the Empire are assisting each other in carrying on vital tasks during these critical times. In spite of wartime restrictions, Britain is finding it possible to send machinery to Kenya, Northern Rhodesia, East Africa, British Guiana and other colonies to assist with the total mobilization of their natural resources. For a food production drive in Kenya, Canada is producing 150 plows and this is only one of many examples of Inter-Empire help which goes on all the time. The volume of the voluntary help which is coming from the smaller colonies when the future of the Empire is at stake, does not show a desire on their part to end the present system, or evidence any dissatisfaction in their relations with His Majesty's government. If the Axis nations were to fully comprehend these facts and figures, they would cease to count on the hope of dismemberment from within as an aid to their efforts to break down the Empire. Prime Minister Churchill has many times referred to the staunch loyalty with which the Empire has joined to support the prosecution of the war, and doubtless these are some of the facts on which he has based his confidence.

THE USE OF NATIVE GREENS

We know that we should eat as many leafy vegetables—fresh if possible—as we can and in the summer it is easy to do just this. Most of us eat lettuce, tomatoes, and celery and consider that we have eaten a sufficient amount of fresh vegetables. It has been shown by food analysis that lettuce and celery have very low vitamin and mineral content, so we would be wise if we altered our summer menu this year. Green peppers, parsley, dandelion greens, water cress could all be used; chopped and added to a salad, they are all good sources of vitamins A and C. Instead of eating spinach this summer, why don't you try the fresh green leaves of your turnip plants. They are an excellent source of vitamin C and have a good flavour. I know some of you have been eating beet tops, but now when you are growing your own vegetables practically all of you can have beet tops fresh and crisp from your garden instead of wilted as they usually are in the store. To show you how valuable these native greens are to your diet I am giving you a table with the content of vitamin C and A and iron an average serving contains:

	Vitamin A	Fe	International Units	Thiamin	Riboflavin	Vit. C
	Mg.	Units	Mg.	Mg.	Mg.	Mg.
Turnip greens	2.0	14222	.13	.05	.155	
Green peppers	.22	953	.09	.01	.101	
Chard	.7	2823	.06	.04	.403	
Kale	.7	4000	.06	.09	.42	
Spinach	2.0	4566	.08	.09	.48	
Beet Greens	.5	1900	.02	.02	.05	
Lettuce	.3	702	.02	.02	.05	

Compare the top six vegetables with the conventionally used lettuce and celery.

These figures are for the vegetables in the fresh state. Nutritional value of cooked vegetables depends on the method used for cooking.

When you cook leafy vegetables use a little boiling water and boil for as short a time as possible to retain the maximum amount of the vitamins and minerals. Always remember to save the cooking water as it has the vitamins and minerals that have dissolved out of the vegetables.

A post card request to the Western Division Health League of Canada, 111 Avenue Road, Toronto, will bring you a free copy of its authoritative vitamin chart.

CONSTITUTION REFORM

A post-war program in Canada is impossible without constitutional reform. Premier Stuart B. Garson told delegates to a conference on world missions at Winnipeg. He said the Sirols report could provide the necessary foundation for post-war reforms.

Much To Remember

Men Travelling After War Would Find Army Guidebooks Valuable

A great many of the men who have been to the far corners of the earth in this global war say that once they get their feet planted in the old home town after the big scrap is over they won't be any more travelling. But a lot of them, having realised how much there is to the world, will want to see it again as civilians.

The more adventurous, who will hit for Africa deserts or sub-Arctic snows, will find it well to remember useful information contained in army guidebooks. One of them, for example, points out that polar bears' livers are poisonous, a diet of rabbit will lead to death through "rabbit starvation," but seal hearts and kidneys and broiled reindeer moss are edible.—Kitchener Record.

Only 12% of Great Britain's overseas trade is with the British Colonies, and imports from the United Kingdom form only 24% of the Colonies' total imports.

Roll your owners! Go for Ogden's

Old time "democrats" often gave their drivers a rough ride. . . . But they found consolation in Ogden's—the aristocrat of cigarette tobacco—a distinctive blend of choice leafy tobaccos, smooth as a kitten's writ. Not just another tobacco, but Ogden's. Try it today. Ogden's quality for pipe smokers, too, in Ogden's Cut Plug.

WINGS PARADE

R.C.A.F. - B.C.A.T.P.

LIST OF APPOINTMENTS

The following airmen have recently been commissioned in Canada. It was announced by Royal Canadian Air Force Headquarters:

Navigators
G. A. Stratton, Weyburn, Sask.
D. A. Murray, Weyburn, Sask.
M. A. Degeat, Guntur, P.O. Man.
J. Spitz, Lacrosse, Sask.
A. R. Pitcairn, E. Kildonan, Man.
J. H. Rutherford, E. Kildonan, Man.
H. M. Calvert, Castle Point, Man.

Could Be Harmful

Care Should Be Taken When Sulfas Drugs Are Used

According to a recent summary compiled by veterinary authorities, the various sulfas drugs which have proved a boon in saving human lives are also saving the lives of farm animals. For example, sulfaguanidine has been found helpful in the treatment of certain types of coccidiosis in poultry, and in calf scour, and also in calf dysentery. Sulfaguanidine is likewise being used in dealing with coccidial infection in sheep, and in certain cases of enteritis in swine. The sulfas drugs are still too new for all their possibilities and values to be known, but there is no question they point the way in veterinary science. However, the Veterinary Director General of Canada points out that sulfas drugs unless used carefully are dangerous and on no account must be used without veterinary advice and supervision.

SMILE AWHILE

"That boy of ours gets more like you every day."

Husband (mildly): "What's he been up to now?"

"Can you recommend the company with which you are insured against accidents?"

"Father: I have been insured ten years and never had an accident."

"Little Betty was dressed in a bathing suit and taken into the water for the first time. Soon her voice was heard—"

"Mother, is this thing supposed to be keeping me dry, 'cause it isn't a bit."

"I want a word of advice," the young man remarked to his uncle.

"Well," said Uncle Lenny.

"What is the best way to approach you for a loan?"

"If you are sensitive," replied Uncle Lenny, "you had better write for it. Then when you get my reply, just tear it up without reading it."

"Personally I never stay out late at night."

"Why? don't late hours agree with you?"

"No, old boy; it's not the late hours that upset me, so much as the excitement when I get home!"

"He said he would lay the earth at my feet," said the sentimental daughter.

"It sounded very good, but it is not practical. You already have the earth at your feet. What you really need is a house over your head!"

Blinkins—The fact is, doctor, that my wife does not walk enough. She can never be persuaded to go out without an object.

Doctor—Then why do you not make a point of going out with her yourself?

Mose, charged with theft, was on the witness stand, and the judge sought to discover if he knew the value of an oath. He said:

"Mose, if you tell a lie under oath, do you know what happens?"

Mose said: "Yessuh, Judge, I goes to hell."

"And if you tell the truth?" persisted the judge.

"I goes to jail," said Mose.

"What are you doing here, dear?" "Looking for a husband."

"But you've got one!" "That's the one I'm looking for."

"Hey! you've cut my chin!" "That's all right, boss; you've got two more left."

A GIANT CAMERA
The New York Times says the largest camera of its kind in the country is in the photography department of the Bell Telephone Laboratories. It makes as many as 800 negatives a day. A 3 1/2 by six foot negative can be made as easily and quickly as an 8 by 10. The camera is so large that the photographer works inside of it—in complete darkness except for a dim red light.

THE RIGHT STUFF
This, too, is the spirit of victory. Left alone on his farm in Bertie township, near Fort Erie, Ont., without any help when his grandson, Howard Reuben Noyes, departed for Toronto to join the R.C.A.F., George F. House, who is 86, will do his farming himself and attempt to raise much-needed crops, as his contribution to the battle against Hitlerism.

The first English printed advertisement is believed to have appeared in 1477.

Jack Minor And Granddaughter Honored

As a tribute to Jack Minor, the Canadian Naturalist and his work, the senate of Alma College, St. Thomas, Ont., at no expense to Jack Minor, at a recent meeting created what is and will be known for years to come as The Jack Minor Scholarship. In announcing The Jack Minor Scholarship, Dr. P. S. Dobson, the principal of the school, also announced that Wilhelmina Conklin Minor, Jack Minor's only granddaughter, was the first recipient of this award. Wilhelmina is the granddaughter of Jack Minor and only daughter of Mr. and Mrs. Manly F. Minor of Kingsville, Ontario. Alma College, a boarding school for teen age girls, is one of the oldest ladies' schools in Canada where many outstanding women of the world have received their education.

A New Strategy

Japan's Former Ambassador To Washington Sees Way To Victory

Admiral Nomura, Japan's pre-Pearl Harbor Ambassador to Washington, offers the peoples of the Axis an assurance of victory that has at least the advantage of novelty. He says they do not have to attack any more. To win now they have only "to hold out in conquered positions."

In the case of Italy, to which the admiral's remarks are especially addressed, there "happen to be no more conquered positions to hold out from. But the Germans have been experimenting exclusively in holding out for the past eight months. They have not done well with this strategy at Stalingrad, or at Rostov, or at Kursk, or in Tunisia. Japan's experience in holding out is even longer. Battles in the Coral Sea, at Midway around the Solomons and in the Bismarck Sea have already held out a sizeable part of the Japanese Navy. Guadalcanal, Papua and Attu have provided additional lessons in holding out in conquered positions. In this succession of defeats Admiral Nomura proposes to see a brand-new road to victory.—New York Times.

Damaged Parcels Show Postal Rules Not Observed

A complete inquiry for an infant was made recently in a personal parcel addressed to a soldier overseas. Other parcels have revealed such things as, silk stockings, powder puffs, hairpins, cosmetics and nail polish. These articles were found when damaged parcels were being repacked by the Canadian Postal Corps. This contravention of regulations may result in the modification or withdrawal of privileges extended by the British Administration to Canadian Armed Services overseas, according to postal authorities.

The reduced rate of 12 cents per pound, the weight proviso of 11 pounds and the duty-free entry of parcels is permitted by the British government only for parcels containing gifts for the personal use and consumption of members of the forces.

Civilians attempting to evade customs duty and full postage by sending goods for civilians in soldiers' parcels are committing an unpatriotic act and jeopardizing the special privileges now in operation.

Apples have been cultivated in Britain since the Romans occupied.

Surplus Of Feed Grain In Canada Must Be Moved

OTTAWA.—Agriculture Minister Gardiner said in the House of Commons that there is a great surplus of feed grain in Canada, much of it still in the fields, and that his anxiety is to get it moved out of the country to make room for this year's crop. Transportation problems interfered with the movement, he said.

There was a shortage of feed grain in U.S. but, through no fault of the transportation companies, hauling facilities could not handle it.

It had been hoped last spring to move 200,000,000 bushels into U.S. but—in spite of the utmost co-operation from the transportation companies—hauling had been available for only half that amount.

He said the surplus stocks were all over Canada, although the bulk was in the west.

Despite the great demands placed upon the railways by the necessities of war, a great deal of grain was being moved. It was hoped there would be a heavy movement to the east, for storage, before the freeze-up.

Mr. Gardiner said a report by The Canadian Press on this subject had described him as telling the house the 200,000,000 bushels of grain which it was hoped to sell U.S. was wheat. He said he had referred only to feed grain.

Mr. Gardiner said his war estimates before the house in committee of the whole.

He said the government needed the co-operation of newspapers, transportation companies and everyone who could help to get this grain surplus moved to markets or storage places.

Mr. Gardiner said wheat farmers sold to the Canadian wheat board as long as the minimum price was higher than the market price. But when the market rose, as it had recently, farmers sold to the trade at a rate higher than the minimum price payable by the board. The trade had been selling wheat at the higher rate.

Subsidies paid on farm products in the calendar year 1942 had totalled \$38,135,440.—These included, practice farm assistance act, wheat acreage reduction, butter subsidy and similar payments.

It was estimated that financing of wheat board operations and carrying charges involved the use of \$301,225,000 in the handling of wheat. Mr. Gardiner said, without specifying the period covered. Some \$150,000,000 had been paid in other direct subsidies. Thus the total money made available for farm purposes had been more than \$1,000,000,000.

Mr. Gardiner said he felt this answered the criticism that hundreds of millions of dollars were made available for the assistance of industry but not for agriculture.

SURE OF VICTORY

General Chiang Kai-Shek Gives Confident Message To China

CHUNGKING.—Gen. Chiang Kai-Shek told China on the eve of the sixth anniversary of the outbreak of the conflict with Japan that the time limit for utter defeat of the aggressor "cannot exceed two years".

"In the seventh year of our war of resistance," he said in his anniversary message, "an offensive that will deal crushing blows to the enemy will be started in various theatres of the world and there will be an unending stream of victories."

"Our war of resistance and the world war situation on this day have reached the highest peak of our uphill struggle," he went on.

"One step beyond will be smooth sailing for us."

His message was one of a series of confident prediction from Chinese leaders of a complete Allied victory and elimination of Japan as a military power.

WOULD SAVE EXPENSE

LONDON.—If British law courts adopt a suggestion of Herbert Morrison, home secretary, people summoned for minor offences need not appear in court. Justice-by-post, the plan, to save time, manpower and expense.

REPORT OF CHAPLAINS

VANCOUVER.—View of chaplains attending a two-day conference of Army and Navy chaplains (Protestant) of the Pacific command is that Canada's soldiers and sailors are the most temperate fighting men in the world.

PRODUCTION CUT

But Nazi Output Of War Goods Fairly Well Maintained

LONDON.—A ministry of economic warfare spokesman said German production in the first six months of 1943 had been cut by Allied bombings and difficulty of obtaining raw materials and labor but that the output of war goods had been fairly well maintained.

He said the flow of war goods, particularly defensive weapons such as fighter planes, anti-aircraft guns and anti-tank guns, had been maintained by drawing on reserves, concentrating on a few basic types of weapons and sacrificing consumer goods.

The spokesman declined to estimate the percentage of the overall production decline until full reports on the damage to the Ruhr have been received. These intelligence reports come by devious routes and frequently are two months late, it was stated.

TIME SHORTENED

Training Period For Japanese Air Cadets Cut In Half

NEW YORK.—An indication of Japan's severe losses in the air came from Tokyo radio, which broadcast an announcement that the training period for Japanese air cadets has been cut from three to one and one-half years.

The broadcast, recorded by United States government monitors, said youths who pass health examinations would be commissioned as air force second lieutenants in 18 months.

ACT RESTRICTED

OTTAWA.—Operation of the National Housing Act was restricted in 1942 to financing houses necessary to furthering the war effort.

F. W. Nichols, director of housing, said in his annual report tabled in the House of Commons by Finance Minister Isley.

King George Witnesses Re-Fight

Standing in an African vineyard, King George of Great Britain sees troops stage a street fighting demonstration for his benefit—a sample of the sort of action which won the Tunisian campaign. A brigadier-general of the U.S. Army, (left), explains the action for His Majesty. Lieutenant-General Mark Clark, U.S.A., is on the right.

Alamein Club, Egypt's Gift To Eighth Army

The Alamein club was recently opened in Cairo, Egypt, as Egypt's tribute to the British Eighth Army for throwing the enemy out of that country. The club is for British troops in Egypt and the fund raised in Egypt also provides for a permanent rest home in England. Pictured above are British sailors dining at the club. Their co-operation from the sea also made possible the success of the British army, and so they, too, share the club.

Isley Explains How Living Cost Index Compiled

OTTAWA.—Finance Minister Isley told the House of Commons the government was anxious to see that the cost-of-living index was sound and accurate and had the confidence of the public.

Speaking in continued debate on an estimates item of \$14,300,000 for prices board administration, Mr. Isley said the government realized the importance of the index to all Canadians, whose cost-of-living bonus was determined by it.

He gave a detailed explanation of the method of compiling the index and the measures to ensure it would indicate correctly the month-to-month changes in the cost of living for the average Canadian family.

Changes such as those brought about by the limitation in the supply of certain goods and the disappearance of others from the market were taken into account in the index, which does not, however, record higher living expenses due to better living made possible by enlarged income.

Mr. Isley said the Dominion bureau of statistics, which prepares the index, keeps a close watch on quality. A reduction in quality in articles such as clothing might mean the cost of living had increased because the garment would not last as long as in the past. In such cases an adjustment of the index was made.

Mr. Isley said many persons wondered how it could be said the cost of living had risen only 17 per cent when the prices of foods had risen so much.

It was true that many food prices had risen more than 17 per cent since August, 1939, and the minister

Canadian Army

Col. J. L. McAvity, 35, has been appointed to head the newly-organized Directorate of Vehicles and Ammunition in the Ordnance Branch of the Canadian Army.

mentioned stewing beef as being up 78 per cent, lard 73 per cent and round steak 66 per cent. The food index in general had risen 31.8 per cent.

But food represented only about one-third of the cost of living as reckoned by the index. In products such as bread and sugar, the index had remained steady while it actually had declined in respect to milk.

The housewife noted the increased food prices in particular and did not so readily note that bills usually paid by the husband, such as rent, home furnishings, clothing and miscellaneous items did not show percentage gains as large as for food. The index took account of the average family's rent, clothing, light and heat, life insurance and other factors as well as food.

A NEW RULING

Prices Board Announces Further Instructions On Ration Books

OTTAWA.—The prices board has announced its ration administration has ruled that persons living in hotels or in boarding houses which are registered as quota users of rationed goods must surrender their ration books or temporary ration cards to the proprietors whether or not they eat their meals there.

The ruling applies to persons living in such establishments for a week or longer.

The announcement said the few Canadian hotels not registered as quota users must also collect ration coupons and surrender them to the ration administration.

From the ration books the proprietor must remove each week one butter coupon and two meat coupons, and every two weeks one sugar and one tea or coffee coupon. These must be sent by the quota user to the nearest branch of the ration administration.

Those who cook regular meals in hotel rooms and who need their ration books for supplies must apply at the nearest local ration board for the right to retain their ration books or cards.

WATCHING ACTIVITIES

NEW YORK.—Agents of the U.S. treasury are constructing a file of information on collaborationist activities of individuals and business establishments with the Nazis in present-day France.

Eden Promises Japan Will Be Taught Lesson

LONDON.—Foreign Secretary Eden declared the day will come when the accumulated weight of the Allied power would "flow eastwards and overwhelm the empire of Japan."

Speaking at a "Salute-to-China" meeting in the Royal Albert Hall, Mr. Eden said, "There is in our hearts a fixed and grim resolve to teach Japan once and for all the lesson that co-prosperity is not achieved by cruelty and oppression and that he who draws the sword shall perish by it."

At the same meeting, Dr. V. K. Wellington Koo, Chinese ambassador to Great Britain, said, "There is ground for hope that it will not be very long before a large-scale plan of dealing deadly blows to Japan will unfold itself."

Leonard W. Brockington, K.C., Canadian adviser to the British Ministry of Information, spoke of the trust and respect China enjoys everywhere.

Recently returned from a 40,000-mile tour of the war fronts, Mr. Brockington said, "The flag that in common Japan should fly in the place of honor, the soldiers that should lead the march in the triumphant entry into Japan—surely the flag and the soldiers should be China's."

Paying tribute to the Chinese people on the sixth anniversary of their war with Japan, Mr. Eden said, "Every thrust against the Axis in Europe brings us nearer to the day when the full force of the United Nations can be brought to bear against Japan. Our great bomber offensive is only a prelude to heavier blows."

He said that living next door to Hitler led Britain to become preoccupied with the menace of Nazi Germany, but he reiterated the promises of other British leaders that the "completion of our task in Europe is only the beginning of the end."

"We of the British Commonwealth and empire have a duty towards our own people in the Far East who are imprisoned and enslaved by the Japanese," said Mr. Eden. "We have a duty in those over-run territories of the empire—the duty to restore to their peoples the freedom and prosperity they previously enjoyed and to assist in their development towards better things."

"Finally, we have a duty towards our Allies, particularly in China, to destroy the Japanese menace and to help them to join in making a contribution for a better order in which all men may live in peace."

WINS SECOND BAR

Record Made By Edmonton Man Serving In R.C.A.F. Overseas

OTTAWA.—Squad Leader Jas. Elmslie Walker of Edmonton, has become the first member of the R.C.A.F. serving overseas in this war to win a second bar to the Distinguished Flying Cross, R.C.A.F. headquarters announced.

This award was one of 32 decorations for R.C.A.F. personnel listed in an air force statement. Squad Leader Elmslie, D.F.C., of Victoria, was awarded the Distinguished Service Order—sixth to be won by an R.C.A.F. member. There were awards of 25 Distinguished Flying Crosses and five Distinguished Flying Medals. Two Saskatchewan men won the D.F.C. and one the D.F.M.

WILL BE DELAYED

South Africans Must Wait For Results Of Election

JOHANNESBURG.—South Africa's 1,250,000 civilian voters went to the polls here July 7 to help settle one big issue—whether to continue the war as they have been fighting it for the last four years, or whether to return to opposition-placed neutrality. The opposition is advocating a republican form of government and an end of the British connection.

The results will not be known for at least two or three weeks, as the mail ballots of 150,000 soldiers and sailors who cast absentee votes must be assembled and taken to Pretoria for counting before the civilian boxes can be opened.

MILLIONS FOR VICTORY

LONDON.—More than \$2,640,000,000 was raised in the government's four-month campaign for "Victory" borrowing campaign, Lord Kendersley, president of the national savings committee, has announced.

ENDING A NUISANCE

Dissolution of the Communist International Party at Moscow on the 22nd of May, removes an obstacle to that wholehearted co-operation of the United Nations which is essential to victory over the common enemy. But to Joseph Stalin, who ordered it, the Comintern's winding-up is a belated admission of one of the most colossal mistakes and the acceptance of one of the most humiliating rebukes in history.

The Communist International was intended at its founding by Lenin in 1919 to be the instrument of world-wide revolution. Operating in conjunction with the Russian export trading organization, it promoted Communist parties in every country on earth, but in no country did a Communist government emerge out of the ensuing turmoil. It did succeed in planting the idea of the totalitarian state in various places, but where this ancient device was adopted, there was a noticeable aversion to the formula of "dictatorship of the proletariat." Unless the Comintern could claim credit for the National Socialism of Hitler, the Fascism of Mussolini, and the Falangism of Franco, the failure of its revolutionary efforts was complete.

It was kept alive as an instrument of Russian national defence, in the belief that the organized Communists of other countries would wage civil war against governments which attacked the homeland of their party. In the event, it failed in this second purpose as in the first one.

The German Communists, numbering millions, did not refuse to take up arms against their Russian comrades. They did not shoot their military commanders. They did not surrender on a wholesale scale.

Before that, for the first twenty-two months of the war, the Communists throughout the free world cheered every Hun triumph and prayed aloud for a final German victory, the while doing their utmost to undermine the marital spirit of the nations which are fighting Russia's undeclared enemy. Had those nations—particularly the British nations, which fought the German and his Italian accomplice for a whole year alone—had they not weakened the aggressors, at dire cost to themselves, the onslaught upon Russia in midsummer of 1941 would have carried the German forces much farther east than it did and perhaps to the point of conquest.

Why, one may ask, was the Communist International allowed to operate for nearly two years (since June, 1941) after its inability to foment unrest among the people of Russia's enemies had been conclusively demonstrated? Apparently to maintain an agitation in the ranks of Russia's friends and helpers. The demands of the Communist factions in Allied countries for still further aid to Russia and for a "second front" had a unanimity of expression and of timing that bespoke organization by a central propaganda agency. The hand of the Comintern was clearly discernible in the simultaneous demonstrations at London, New York, Washington and Toronto, and in the prodigious of harassed Allied governments of the pink press. Fortunately, neither mob clamor nor unenvied print-

ing ink caused Russia's Allies to deviate by a hair's breadth from their grand strategy. In this final test the Communist International showed that even its nuisance value was fast evaporating. Its only success, as always before, was the negative one of stirring up distrust in Russian collaboration.

A tragic blunder at the start, the Comintern has for twenty years been also a fake and a fraud as well as a provoker of international discord. For there never has been more than a semblance of Communism in Russia—a little window-dressing for a capitalist renaissance. The incentive of personal gain has long been a cardinal feature of the Russian economy. Piece-work and wage differentials have no place in a society dedicated to equality among its members, but they are part and parcel of the Russian industrial system. Succeeding the aristocrats of the monarchial regime are the highly-privileged bureaucrats who direct the affairs of the state which, after slaughtering all citizen-suspected of revolutionary tendencies, is more than ever nationalistic. The "internationalism" of the Party was not for domestic consumption, but for export. And so was its Communism.

The Russian people, who have fought for their country with no less bravery since June, 1941, than they fought with under their Tsar from 1914 to 1917, deserved something better of their government than the sheltering of an agency to spread confusion among their rescuers. The continued existence of the Comintern has been a material handicap (as it has always been, morally, a shame and a curse) to a patriotic Russian populace.

Wherever credit is due the Russian government for ending this Moscow conspiracy against international good will sinks in the general recollection of that culpable connivance which kept the Comintern alive so long. The winding-up is commendable only as the stopping of a nuisance which, finally, had become annoying to its perpetrators.—Canadian Labor Review.

REAR ADMIRAL DENIS BOYD

BRITAIN'S FIFTH SEA LORD

Rear Admiral Denis W. Boyd, who has been appointed Britain's 5th Sea Lord and Chief of Naval Air Equipment.

THE FISHERMAN'S PRAYER

Lord, give me grace to catch a fish.
So big that even I,
When talking of it afterwards
Need never tell a lie.

A HOT ONE FOR THE HOARDERS

Your tins are full of coffee,
Your bins with sugar burst,
Let others skimp on rations,
You safely stocked up first!
With shiftless people's larders
As bare as Mother Hubbard's,
What cans and jars and bottles
Weigh down your crowded cupboard!
And we hope you have ants in your pantry, lady,
And go to some place neither cool nor shady.

Mrs. Gabber: "Doctor, why does a small cavity feel so large to the tongue?"
Dentist: "It's just the natural tendency that your tongue has to exaggerate."

A young man went into the hardware store and said to Dick: "I wish to pay the last instalment on the perambulator."

Dick, smiling, handed him his receipt and asked: "And how is the baby?"

"Oh, I'm feeling fine, thank you," came the reply.

Carry your registration certificate.

THE BOUNTIFUL HEN

I sing of the bountiful hen,
Who for industry has such a yen:
She gives us a lay
About every day,
And is almost as blithe as a wren.
Dear biddy, you look so sedate,
Though you merrily cackle and prate:
You can sit at your work
But yet never shirk.

[cratc.]
And you turn out your eggs by the O, how you can nestle and brood,
In diligent, dignified mood!
While early and late
You just incubate—
Or get up, and scratch for your food.
You gallantly sing of your role,
With all of your voice and your soul.
As you stick to your job
Without murmur or sob,
And to see life steady and whole.

"V"
Local Welshman: "Say, what do you think of the golf course at Lanfairfechan?"
Friend: "Well, it's rather hard for me to say."

The pastor was testing the knowledge of the junior class at Sunday school. "What," he asked, "are the sins of omission?"

After a few moments of silence, one of the youngsters timidly answered: "They're the sins we should have omitted and didn't."

"V"
Down in Ontario women are demanding more slack in pants. Next, please?

—a small type of monkey, nocturnal in habits, found in many of the islands of the Pacific. They live in trees and sleep hanging upside-down from the branches. One variety, the Flying Lemur, has membranes connecting fore and hind legs, like abbreviated wings, which help to support them in the air when jumping.

LATEST NEWS ON THE DRAFT

"Lads born in the first half of 1824 will be registered on Saturday, August 15."—South Wales Argus.

IT HAPPENED IN ENGLAND

It has happened at last. A bull that escaped from a slaughter house took refuge in an antique china shop near Windsor Castle. There was scarcely a whole piece of china left when drovers came and captured the bull. Mrs. Maude Crutchley, manageress of the store, said: "I was bombed out of my London home, but it was not more exciting than the quarter hour trying to get the bull out of the shop.—Steping Stones."

Around ninety years ago, when Jim Paden was thinking over the problem of attending school and learning something, conditions were slightly different to what they are today. Jim looks back to that time now, and hopes that the next quarter century will be less molested by war magates and inhuman beings. Jim today lives in retirement at Lundbreck, where his forty by fifty-two foot square ranch of vegetables looks to him like eight square miles without glasses. Jim is remembered by the oldest oldimers of the Pass, having been a pioneer restauranter in Blairmore in the nineteen hundreds. His wife predeceased him quite a number of years ago. Here's luck, Jim!

A WEEKLY EDITOR LOOKS AT Ottawa

Editorial specialty
for the weekly newspapers of Canada
By Jim Greenblatt

This introduces, from the nation's capital, a new series of weekly letters, designed exclusively for community papers of Canada and that vast audience of readers which never gets out to a night club. For the rancher, farmer, fruit grower, mine, the semi-urban and rural people whose feet are directly and indirectly rooted in the soil of Canada.

Your own editor, among others, has been annoyed to high heaven with the flood of material which comes from Ottawa, much of which he cannot use. Like you he's a busy person, running that old paper you think so much of, whether you agree with him on politics or not. He knows you would be interested in a quick catch-up on government doings and what's what around Ottawa after you come, in from chores at night. He also knows you do not relish long winded reading after a hard day's work. And this weekly feature, for your editor's sake and especially you, I hope will fill the bill.

The Wartime Information Board has been made aware that readers of weekly papers are entitled to something in their own language from Ottawa, and so, accepting this assignment it would be interesting to get your collective reaction through your editor.

If you have any particular problem which has its anchor in Ottawa, and you want to know what makes it tick, feel free to drop a line to this column. Maybe it can be interpreted for you. Possibly there are thousands of others who want to know about the same thing. But it would be better if none of us get too personal or too political. We'll leave that sort of thing to the politicians.

This column, to justify itself, should be a national mirror for the home town. I don't suppose you are much interested in the fact that Ottawa looks really beautiful this time of year. So is your own place out east and west. But you might like, occasionally, to hear of strange people, strange faces, strange ideas, all of which makes Ottawa so intriguing even if you have to stand in line to see it.

There could be little sidelights, like seeing the Soviet fliers recently; the fellows who flew from Moscow to Ottawa—just like that. I watched them in the hotel lobby, in black knee-length boots, loose fitting tunics, rakish forage caps, smart earnest looking fellows who looked as if they had a mission in life. Undoubtedly theirs is killing Germans. They were watching the smartly dressed girls in and out of uniforms; men of our armed forces, civilians, and seemed to be measuring the standards of democracy as against Communism. I got a kick out of watching them eye the well filled cigar stand, the jammed hotel cafe.

Well, that's part of Ottawa. A little of this, a little of that, about government activities, legislation, parliament, none of it too wearying—but informative.

Just recently I heard Hon. Humphrey Mitchell in the house of commons justify the government's manpower policy. When he said that 5,100,000 men and women out of a total population of 8,720,000 aged 14 years and over were in the armed forces or at work, this on the face of it speaks mightily well for Canada at war. The Opposition calls it a "muddle." Well, after listening in on the debates for weeks on end, it becomes increasingly clear that Cana-

dians have got to think and interpret for themselves a little, too. We'll try to unravel things, if possible, always keeping in perspective the national picture and that millions of others have problems and ideas, too.

Letters in from editors all over Canada relative to this new service reveal that people in Canada are pondering these days and want to take the works of the clock apart themselves. One editor suggests we dig with both hands into a health insurance measure now pending which he claims would be foisted on us by a medical monopoly, and which in its present form would cost the people plenty.

A Manitoba editor wants, "in simple language enlightenment on matters pertaining to farmers and the farming communities" and also "of what benefit will the post war reconstruction schemes be to the farmer."

That seems to be our "simple task" in this weekly news letter. You must not expect miracles of reporting. Time, experience in digging out the essential facts and developing a continuity of understanding of what you might be interested in out here will follow. Undoubtedly you want facts, and an authentic, unbiased and interpretive slant at Ottawa, dished out as if your own worried-looking editor was here doing it.

In answer to inquiries as to whether or not unrationed meat may be served in restaurants on Tuesdays, the Wartime Prices and Trade Board announces: On Tuesdays, no meats, rationed or unrationed, may be served in restaurants. Poultry is not considered meat.

Study of labor supplies and farm commodity prices will form the basis of the annual meeting of delegates representing the 52 member organizations of the Alberta Federation of Agriculture in Lethbridge on July 22 and 23. Donald Gordon, chairman of the Wartime Prices and Trade Board, Ottawa, and an official of the National Selective Service, will be in attendance.

Enough Twine, No More, For Crops; Navy, Merchant Marine Reserve Rest

MERCHANT NAVY MEN SPICE MILES OF TWINE INTO HAWSERS

Better tie a string around your binder twine was made from Java and African hard fibres. Today, the limited supply of these best quality fibres is being reserved for the Navy and ocean going merchant marine.

Best available substitute for the hard fibre comes from Mexico. This will be used to manufacture 60,000,000 pounds for use on Canadian farms.

Despite the poorer quality, the new binder twine is expensive to make.

To maintain the present price level, the government will subsidize imports.

Farmers can help, by using twine sparingly and by making sure equipment is in good condition so that it will cut threads cleanly and without wastage. They can also help by taking care of their rope to make it last as long as possible.

We understand the Coleman Journal is taking a two weeks holiday, so the staff and their families can vacation till the end of the month.

WASTE METALS WILL MAKE MORE MORE MORE

MORE steel is needed for more ships, more tanks, more planes, more guns, more munitions.

Canada right now is faced with a shortage of iron and steel. During the first nine months of 1940, Canada produced about 1,500,000 tons of steel ingots; during the first nine months of 1941, she produced more than 1,750,000 tons of steel ingots; during the first nine months of 1942, she MUST produce over 2,000,000 tons of steel ingots.

Steel is not made out of this air. It is made out of iron ore, and pig iron, and scrap iron and steel. A mill that can turn out 200 tons in a given time using iron ore and pig iron can turn out 500 tons using pig iron and scrap metal.

THIS IS WHERE YOU CAN HELP!

Dig out every piece of scrap iron and steel you can lay your hands on! Get it to Canada's war industries through your Salvage Committee. DO IT NOW! No piece of scrap iron or steel is too small! EVERY POUND COUNTS!

PATERN FOR DISASTER

BY J. B. RYAN

CHAPTER XI

TOGETHER Morgan and Roista slipped out of the warehouse shadows. Hardly had they placed themselves on the opposite side of the automobile when they heard approaching foot steps, and then the striking of a match as another cigarette was lighted. Morgan, lifting himself on tiptoe, saw the dim figure of Rojas pause beside the running-board of the car. The American glided around and touched his pistol to Rojas' side. "Arrriba, Captain," he said softly. "Hands up!" Rojas whirled, blinking in his surprise. "Morgan!" he exclaimed. "Not so loud, senior," cautioned Morgan. "We want a word with you."

"You are under arrest, Morgan. Put that gun away," Rojas made no effort to raise his hands. "Rojas, you are hunting the wrong people. Listen—"

"The captain stepped back quickly and his hand flew toward the holster weapon belted about his waist. "Banchet! Pedro!" Rojas' voice rang out into the night with the carrying quality of a struck gong. "Hurry! Morgan is here—"

Morgan's arm rose and fell crashing the butt of the automatic down on Rojas' head. He crowded the falling figure against the car and seized the stunned man to the ground. "Roista!" he cried. "Blast the car and get out of here! Before the police come tumbling out of that building!"

The girl darted forward and opened the car door. Morgan gathered Rojas in his arms; the turning star whirled the motor into life and Morgan, throwing himself with the unconscious captain into the rear seat, heard gears clash, the car jolted into motion with an abruptness that piled Morgan and his burden into a heap on the cushion.

ROISTA gripped the steering wheel more tightly and the crescendo of the motor increased as her foot flattened the accelerator against the floorboard. The police who blocked the exit jumped hastily to avoid the hurtling vehicle.

"Keep going, seniorita!" Morgan called. "They'll be after us as soon as they can round up the police."

"There was no need to halt for Morgan to take the wheel. Roista Velasquez was handling the speeding car with all the dexterity Morgan himself could have commanded, and her superior knowledge of the streets enabled them to keep up the pace and quickly put the city behind them.

In his corner of the tonneau Roista straightened, groined under his breath and fingered the bump on his head. He eyed Morgan, the girl, the gun resting on Morgan's knee. Then he gazed at the night-dimmed countryside blurring past the window of the car.

"Are you mad, senior Morgan?" he asked. "This is kidnapping." "You force us to take these desperate measures, captain. We want to prove to you that you should be on our side instead of Guillermo's. Guillermo is the spy whose activities brought me to Buenos Aires. It was he who ordered Velasquez and Diaz killed."

"I hope you speak the truth, senior," Rojas smiled. "I would like to believe that the confidence and co-operation we showed one another was not misplaced on my part."

Roista turned the car off the highway, entering an empty lane that branched through a grove of trees. Where the growth was thickest, the girl applied the brakes, and in that secluded spot Captain Morgan perceived the details of the tangle that had commenced when the American had observed the faintly grained surface of what should have been an immaculate and sparkling glass.

CAPTAIN ROJAS heard him through, and was silent for a long moment. "That is a rather fantastic tale, senior Morgan," he said at length. "I regret that I cannot accept it."

Into the hotel there is a long chance that we can put the skids under Guillermo."

The girl glanced doubtfully toward the policeman. "But—Capt. Rojas—" "I shall handle Rojas," Morgan said briefly. "Wait until I have a look into the rumble seat."

Roista took the automatic while Morgan left the car and opened the baggage compartment. He found a section of rope long enough to bind the arms of Rojas securely.

Rojas made no physical protest as his hands were tied behind his back. "I shall not forget this indignity, senior," he promised darkly.

"Sorry, captain," Morgan apologized. "But I cannot trust you not to create a disturbance when we return to Buenos Aires, or while we are in the hotel." The knots tightened, Morgan took his handkerchief and fashioned a gag to place over Rojas' mouth and jaw.

Back on the highway, Roista headed the car toward the lights of the distant city. Because the police were on the lookout for Rojas' car, she sought the darker streets as soon as possible, and worked her way toward the Casa Grande by a circuitous route. Finally she swerved the car to the curb and stopped.

They remained in the car until the street was empty of pedestrians in both directions. Then Morgan hustled Rojas toward the sidewalk and, taking his captive's arm, forced him to walk with them to the corner and into the service driveway of the Casa Grande.

All the doors along the platform of the hotel were closed. Roista took the keys from Morgan, unlocked one particular door, then nodded her head in signal that the hall within was temporarily deserted.

"Stop at the fourth floor," Morgan whispered, as he and Rojas stepped with the girl into the waiting elevator.

"But your room is on the fifth floor," said Roista.

"We are calling on Guillermo," said Morgan, closing the door of the elevator. "Buy a little prayer, seniorita, that Don Felix is home and that he has not yet heard that we have been routed from the wool warehouse."

(To Be Continued)

Next chapter: Morgan exposes Guillermo's secret.

IMPOSING FIGURES

Between date of landing in North Africa and the middle of May British troops smoked 40,000,000 cigarettes and ate 6,000,000 bars of chocolate. Since April 1, 2,500,000 British airplanes dealt with, and 25,000 bags of mail were received from Britain.

"Yes," Morgan nodded, still puzzled. "I have already told you all that, and I see nothing I may have said that should cause such doubts to enter your mind."

"That is where your whole story falls down. After you left us at the elevator I was with Don Felix at the moment of the time from then on. Guillermo had no chance to talk to me. He did not even descend to the ground floor where Don Nova probably was. We left the elevator at the fourth floor because I wanted another look at Col. Velasquez's room. Then I accepted Guillermo's invitation to wait in his room until Diaz returned with the fingerprints we were expecting. Don Felix and I were together when the news came that Diaz had been shot."

"FOR a space Morgan was nonplussed. "There is a telephone in Roista's room," he heard her say. "I could have called the desk and communicated with Don Nova."

"Rojas shook his head. "Don Felix did not touch the phone. We did not even discuss the death of Velasquez. Guillermo is a cultivated gentleman. We talked of books, plays and music. He asked if I would like him to play the violin, and I suggested that he play my favorite, O Sole Mio. I shall never forget the exquisite music the gifted Don Felix created."

Morgan, too, through the opened window of his room on the floor above, had often heard the music of Guillermo. The bespectacled man was indeed a wizard with bow and string.

"The game is up, Morgan," said Rojas. "Give me that gun and we shall return to the city. You, Velasquez and Diaz. No other conclusion is left me, a thing I regret exceedingly. My sympathies are with America in this war and I was quite eager to help you stamp out German espionage in Buenos Aires. But you went to the Casa Grande not to watch for spies but to obtain our military secrets from Col. Velasquez."

"That is a lie!" Roista interrupted. "Uncle Miguel was no traitor!"

"Permit me to contradict you, seniorita," Rojas inclined his head politely. "Col. Velasquez's missing papers were found on Esteban, your 'burden.'"

"Burden?" "No!" Morgan's voice took on a sudden vehemence. "Roista—when you and Esteban took me out of the Casa Grande how did you manage it unobserved?"

"There is a service elevator," the girl explained. "used to move baggage, laundry and supplies from the different floors. The elevator was not in use at that hour of the day and no one saw us when we took you down."

"And the time is only a little later now," nodded Morgan in vast satisfaction. "Do you think we could get into the hotel by the same method?"

"We might," Roista replied doubtfully. "The elevator will be idle, I know. But the door at the rear platform will be locked."

MORGAN grinned and produced the ringed keys from his pocket. "I can open any door in the Casa Grande—thanks to Capt. Rojas. O.K., seniorita, here to you. I've just had an idea. If we can sneak

Constantly Watched

Barrage Balloons in Britain Get Through Overseeing Every Day

Britain's barrage balloons are moored for the duration, and so are their crews, who must be on watch 24 hours a day, says "Britain." Every morning the cables must be oiled and there is a general checking up. The which must be cleaned and started up, and the "purity test" must be made with a meter which registers the amount of oxygen mixed with the gas. Too much oxygen, gas causes a dangerous explosion. The fabric must be carefully examined for punctures, and any holes must be mended. Picket duty is very important, for a balloon might suddenly leave its moorings and go down. Members of the Women's Auxiliary Air Force are gradually taking over this job, except on island sites where the balloons are water-borne. A full crew consists of sixteen W.A.A.F.s but there must never be fewer than nine on duty.

SELECTED RECIPES

HOME-BAKED BEANS

1 pound dried navy beans
1 teaspoon dry mustard
1/2 teaspoon pepper
1/4 to 1/2 cup Bee Hive Corn Syrup
1/2 peeled large onion
8 pound salt pork
1/2 tablespoon salt in 1/2 cup boiling water

Look over and wash the beans; cover with cold water and let stand overnight. Drain. Cover with fresh cold water, bring to boil and simmer 1/2 hour. Drain and turn into bean pot. Sprinkle with the mustard and pepper, mix with the corn syrup and add the onion, cut-up salt pork and boiling water to cover. Cover and bake in slow oven, 300 degrees F., for two hours. Pour the salt and the 1/2 cup boiling water over the beans; complete the baking (about 3 hours longer). During baking, add water as necessary to keep the beans moist; uncover toward end of baking to allow the top to become crisp. Tomato ketchup or chili sauce may be added when the beans are nearly done. Reduce salt, if pork is very salty.

NUMBER ONE TRAVELLER

King George is Britain's number one traveller. He has covered 36,000 miles in his royal train since the outbreak of the war, and all his journeys have been both necessary and helpful to the morale of the British citizens with whom he has shared joys and sorrows through good times and bad, moving freely about the country—Financial Post.

An "engaged" column, in architecture, is a column partly embedded in a pier or wall.

Has Unique Position

United States Army Engineers Have Created Air Field At Bermuda. Many remarkable achievements have been made in the reclamation of lands from marshes, rivers and the sea, and one of the most interesting of the present war is the airfield created by United States Army Engineers at Bermuda.

Named for one of its planners, Kindley airfield adjoins Fort Bell, one of the defenses of the island, and it was literally built up from the bottom of the sea. Where 18 months ago there was just the clear water of Bermuda, there is now one of the most up-to-date airfields that air services could wish for. Millions of cubic yards of fill were dumped into the area by dredgers until there was sufficient top surface on which to lay out runways and erect buildings that by any modern standard would be called impressive.

Fort Bell has undergone extensive modernization at the hands of the Americans who hold the land on a 99 years lease from Britain. One of the roads is to be named Andrews in memory of General Frank M. Andrews who was killed not long ago in an air crash in Iceland, and another is to be Fox road in memory of the owner of the land who had refused fabulous offers from wealthy Americans who wished to build homes there. But he gave up his palatial home and the land as a contribution to winning the war, saying that if it was the King's wish, he would be glad to do so. His death soon after was attributed to a broken heart.—St. Thomas Times-Journal.

POST-WAR PLANS

Many cities in Great Britain, among them Birmingham, Coventry, York and London, are already planning for post-war buildings. "Planning" is the right word, for no longer are builders allowed to build haphazardly. The re-building of the cities is being controlled, and York, for example, is trying to determine in advance whether to plan for a population of 50,000, 100,000 or 150,000.

—Canadian Army Photo.

Commentaries for military training films are here being added with aid of the electric telecode machine by Cpl. Irene Mervap of the C.W.A.C.

Cpl. Irene Mervap of Regina, Sask., is convinced that here is one of the most interesting jobs in the Canadian Women's Army Corps. As an experiment, Cpl. Mervap has been employed as a "film projectionist" in the Film Branch of the Directorate of Military Training in Ottawa, during the past five months. The experiment has proved a success, and thus a new field of endeavour is opened to the Canadian Women's Army Corps.

This work involves the projection of all new training films gathered from member countries of the United Nations, at previews held in Ottawa for staff officers to select subjects suitable for Canadian training needs. In addition, Cpl. Mervap is responsible for the care of a large library which contains thousands of feet of film on a variety of training subjects.

Cpl. Mervap finds her work interesting and exciting, for in one day she is likely to screen a host of training films and documentaries from tests of snow-mobility in the Arctic to hand-to-hand fighting in New Guinea jungles. Recently, this young woman has taken on a new task—one which vies any other for interest—the operation of an electric telecode machine, which records on wax cylinders the commentaries of selected films. The cylinders are then placed on a transcriber and the commentary typed out. Although to date Cpl. Mervap is the only C.W.A.C. member to be employed at a job of this type, it is expected that more personnel will be trained shortly as projectionists throughout Canada.

BUSY WOMEN come to the workrooms in hundreds to sew ditty bags, hospital garments, refugee clothing. "When there's a lot to be done, a good deal depends on getting a head start in the day," says Emily Allen, business girl (left). "Kellogg's Corn Flakes are my favourite at breakfast time or anytime." Yes, Kellogg's Corn Flakes are the favorite in an overwhelming majority of Canadian homes. They're ready to eat in 30 seconds, have no pots and pans to wash, economical, too. Get some tomorrow. Two convenient cans. Made by Kellogg's in London, Canada.

SAVE TIME—SAVE FUEL—SAVE WORK

Reclaimed From Sea

United States Army Engineers Have Created Air Field At Bermuda. Many remarkable achievements have been made in the reclamation of lands from marshes, rivers and the sea, and one of the most interesting of the present war is the airfield created by United States Army Engineers at Bermuda.

Named for one of its planners, Kindley airfield adjoins Fort Bell, one of the defenses of the island, and it was literally built up from the bottom of the sea. Where 18 months ago there was just the clear water of Bermuda, there is now one of the most up-to-date airfields that air services could wish for. Millions of cubic yards of fill were dumped into the area by dredgers until there was sufficient top surface on which to lay out runways and erect buildings that by any modern standard would be called impressive.

Fort Bell has undergone extensive modernization at the hands of the Americans who hold the land on a 99 years lease from Britain. One of the roads is to be named Andrews in memory of General Frank M. Andrews who was killed not long ago in an air crash in Iceland, and another is to be Fox road in memory of the owner of the land who had refused fabulous offers from wealthy Americans who wished to build homes there. But he gave up his palatial home and the land as a contribution to winning the war, saying that if it was the King's wish, he would be glad to do so. His death soon after was attributed to a broken heart.—St. Thomas Times-Journal.

Many cities in Great Britain, among them Birmingham, Coventry, York and London, are already planning for post-war buildings. "Planning" is the right word, for no longer are builders allowed to build haphazardly. The re-building of the cities is being controlled, and York, for example, is trying to determine in advance whether to plan for a population of 50,000, 100,000 or 150,000.

Commentaries for military training films are here being added with aid of the electric telecode machine by Cpl. Irene Mervap of the C.W.A.C.

—Canadian Army Photo.

Cpl. Irene Mervap of Regina, Sask., is convinced that here is one of the most interesting jobs in the Canadian Women's Army Corps. As an experiment, Cpl. Mervap has been employed as a "film projectionist" in the Film Branch of the Directorate of Military Training in Ottawa, during the past five months. The experiment has proved a success, and thus a new field of endeavour is opened to the Canadian Women's Army Corps.

This work involves the projection of all new training films gathered from member countries of the United Nations, at previews held in Ottawa for staff officers to select subjects suitable for Canadian training needs. In addition, Cpl. Mervap is responsible for the care of a large library which contains thousands of feet of film on a variety of training subjects.

Cpl. Mervap finds her work interesting and exciting, for in one day she is likely to screen a host of training films and documentaries from tests of snow-mobility in the Arctic to hand-to-hand fighting in New Guinea jungles. Recently, this young woman has taken on a new task—one which vies any other for interest—the operation of an electric telecode machine, which records on wax cylinders the commentaries of selected films. The cylinders are then placed on a transcriber and the commentary typed out. Although to date Cpl. Mervap is the only C.W.A.C. member to be employed at a job of this type, it is expected that more personnel will be trained shortly as projectionists throughout Canada.

BUSY WOMEN come to the workrooms in hundreds to sew ditty bags, hospital garments, refugee clothing. "When there's a lot to be done, a good deal depends on getting a head start in the day," says Emily Allen, business girl (left). "Kellogg's Corn Flakes are my favourite at breakfast time or anytime." Yes, Kellogg's Corn Flakes are the favorite in an overwhelming majority of Canadian homes. They're ready to eat in 30 seconds, have no pots and pans to wash, economical, too. Get some tomorrow. Two convenient cans. Made by Kellogg's in London, Canada.

SAVE TIME—SAVE FUEL—SAVE WORK

Reclaimed From Sea

United States Army Engineers Have Created Air Field At Bermuda. Many remarkable achievements have been made in the reclamation of lands from marshes, rivers and the sea, and one of the most interesting of the present war is the airfield created by United States Army Engineers at Bermuda.

Named for one of its planners, Kindley airfield adjoins Fort Bell, one of the defenses of the island, and it was literally built up from the bottom of the sea. Where 18 months ago there was just the clear water of Bermuda, there is now one of the most up-to-date airfields that air services could wish for. Millions of cubic yards of fill were dumped into the area by dredgers until there was sufficient top surface on which to lay out runways and erect buildings that by any modern standard would be called impressive.

George H. Nies, of Blairmore, is among the latest to join the air force.

Coleman Elks will hold their annual carnival this Saturday and Monday nights.

The true way to mourn the dead is to take care of the living who belong to them.

Mr. and Mrs. George Turner, of Fernie, took in the Calgary Stampede. They seldom miss it.

Mr. and Mrs. Gordon Steeves and daughter and Miss Donna McKay spent last week end in Calgary.

Local gardens were hit badly by frost on Monday of this week. Especially did tomatoes and potatoes suffer.

In Great Britain 90% of the men employed before the war as bus conductors have now been replaced by women.

An exchange says: Our advice to girls is, if you meet an egg who is too fresh, crack him before he gets too bad.

Then there was the 1943 office boy who asked for the afternoon off because his grandmother was playing right field.

Due to scarcity and rationing of bacon, and the price of eggs, the name of the morning meal has been changed to oatmeal.

The London county council is making extensive use of posters to advertise its plans for holidays at home to save transport.

Mr. and Mrs. Fred Antroub, of Coleman, were in Calgary last week end to meet their daughter Freda on her arrival from Toronto.

A pair of forceps left in his body after an operation twenty years ago caused the death of Charles Owen, of Manchester, at the age of 50.

In a class of air navigators to receive badges at the No. 2 Air Observers' School, Edmonton, on Friday last, was T. M. Galvon, of Blairmore.

Many folks will be pleased to learn that the government has created a corn ceiling. There'll probably be a limit to their suffering from now on.

A wedding carriage was seen driving down the street a few days ago with the following words chalked on its side: "The result of careless talk."

Twenty-five years ago S. F. Wallace managed to put his Ford car over an embankment near Elko. He escaped with a limp, but the car went to hospital.

A number of fairy tales begin with "Once upon a time . . ." but considerable more with "I regret that due to circumstances over which I have no control . . ."

Local and General Items

The Editor will be glad to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, showers, presentations, anniversaries, etc. Please items in to 11 or hand them in at The Enterprise office not later than Thursday evenings.

Skis are being used as fish rods in this district.

New ration books will be issued in Canada August 25 to 28.

Pincher Creek district welcomed a two-inch rainstorm on Friday last.

A 9-man detachment of the RCMP now polices the Drumheller district.

That term "Sixty hours without rain" has been banned in Blairmore.

Cardston's annual rodeo - stampede was held on Wednesday and Thursday of this week.

A Scotchman was run over by a beer wagon, and for the first time in his life the drinks were on him.

Herbie Mah returned Sunday from Calgary, where he spent the whole of the previous week at the Stampede.

A conference is a group of men who individually can do nothing, but as a group can meet and decide nothing can be done.

Scientists discovery of prehistoric 14-inch oysters in New England indicates a warmer climate formerly prevailed there.

Many a fisherman seemed to be contented to stay at home over the week end, just because of an occasional shower of rain.

A. Svec, George Fisher and Archie Corrie, of Natal-Michel, returned home Monday afternoon from a few days visit to Calgary.

Miss Georgette Dau left by Thursday afternoon's train for Toronto, where she will enter upon an advanced course in music.

J. D. Baker, Alberta's deputy minister of railways and telephones, and general manager of the Alberta government telephone service, died in Edmonton Saturday at the age of 60.

Prices have been fixed for all grades and varieties of jams and jellies by the Wartime Prices and Trade Board. To achieve this, manufacturers will be paid two subsidies to compensate them.

PO Lyle Humphrey, son of H. J. Humphrey, vice-president of eastern lines of the CPR, has been awarded the conspicuous gallantry medal for action overseas with the Royal Canadian Air Force.

Mr. and Mrs. Gwilym Evans, who had been visiting here with Mr. and Mrs. W. McVey, returned to Fort Saskatchewan the early part of the week. They expect to return here for fishing and hunting about a month later.

Word has been received by Mr. and Mrs. Ed. Labrie, of Cowley, that their son Reggie was missing in action. Four months ago he went overseas as a wireless air gunner. His father is clerk at the Indian agency at Brocket.

A consultant is a man who knows less about your business than you do and gets paid more for telling you how to run it than you could make out of it, even if you ran it right instead of the way he told you.

Marshall Wells Alberta Company Limited, Edmonton, was fined \$1,500 and costs when it pleaded guilty to charges of supplying small arms ammunition to an unauthorized purchaser, contrary to regulations freezing sale of such. In addition, several officials were fined \$150 and cost each.

About twenty-five members of Turle Mountain Squadron No. 167, of the Air Cadets of Canada, left Blairmore by special bus Sunday morning for a ten days' camp and training at Claresholm. The boys regret that none of their officers could accompany them. They were joined by the padre of the troop, PO Rev. Father M. A. Harrington, early in the week.

The new Elks' paddling pool for kiddies was opened at High River on Tuesday of this week.

Some fish were taken near Lundbreck on Wednesday afternoon that measured fourteen inches from north to south.

The approaching convention of the Canadian Weekly Newspapers Association, to be held in Toronto, has been styled "Warvention." It's a term absolutely new, to Webster.
